

Highest Award – Honorary Life Membership

The highest award the EPA can give is "Honorary Life Membership" of the Association. This award is given at the discretion of the EPA Management Committee in recognition of services to the game of pétanque. A maximum of three awards may be given in a year.

To give this award the full recognition it deserves and to ensure all candidate proposals are fairly reviewed the EPA Management Committee have appointed a "Life Membership" panel consisting of Ex-Presidents who are "Life Members" in their own right.

The Management Committee have, in consultation with the panel, introduced a new protocol which will be applied when proposing and considering candidates for this award. The details are as follows:

- Life members are appointed by the Management Committee with each nomination being reviewed by an appointed panel of "Life Members".
- These awards will be presented at The Inter Regional Competition or AGM.
- Members and non-members of the Association can be proposed by any EPA Member, County Region and the EPA Management Committee itself.
- Member's nominations must be made via their Registered Club or County Region. In all instances a signed copy of the minutes supporting the nomination must be enclosed with each proposal.
- There is no time bar or restriction regarding the number of times a person can be proposed.
- In reviewing nominations the panel's main consideration will be the evaluation of the service, involvement and/or contribution made by the nominated person to the game and/or Association.
- All nominations must be submitted to the EPA National Secretary by 30th June to ensure consideration in that year.

Neither the EPA Management Committee nor the review panel will enter into any correspondence with regard to decisions made.
